

## ***KNOWLO in short...***

KNOWLO project main aim is a transformation of an educational institution to SMART Learning Organization, while supporting the learning/sharing process between organizations and people. On the general level, KNOWLO project targets several objectives:

1. To boost the innovative potential in vocational education
2. To provide a new and innovative system and methodology for training/learning and sharing which can stimulate vocational education, adult education
3. To provide the possibility to think out of the box by sharing/learning innovative ideas and methods from other types of educational organizations (universities, elementary schools, private adult education providers, etc)
4. To help the educational organizations create an environment of excellence and become the Learning Organizations
5. To enhance the human capital in Learning Organizations
6. To help the Learning Organizations to network with other similar thinking organizations across Europe

## ***KNOWLO first online meeting...***
