### Roma Education Programme, Dublin, Ireland

The Roma Education Programme is run by Cairde, and funded by Ireland's Department of Children, Equality, Disability, Integration, and Youth (DCEDIY). Cairde is a community development organisation working to tackle health inequalities among minority ethnic communities by improving their access to health services and their participation in health planning and delivery.

The overall aim of the Roma Education Programme is to support Roma participants in developing skills that can facilitate their participation in Irish social, cultural, and economic life. It has been designed and implemented to overall support participants in acquiring skills applicable to their daily lives in Ireland, thereby facilitating their inclusion in Irish society. This includes efforts to improve their employability and boost confidence in applying for and accessing job opportunities.

"I don't know how to go on the laptop, I don't know how to go on the Zoom, I don't know how to send an email or message, and now I can do everything - fill out forms, speak to people on the phone in English, talk to teachers at my children's school, these classes have changed my life." - Roma Education Programme Participant
